

# EZee Frame

PRODUCT  
FACT  
SHEET

The TS Global range of Patented EZee Frames is designed to be installed in place of traditional return idlers (flat or vee configurations). They are designed to allow the easy removal of return rollers and remove the need for mechanical aids to support the belt during roller replacement. Manufactured from stainless steel or mild steel (finished with galvanised coating), the units balance cost-effectiveness with long-life functionality, making this the ideal choice for your application.

## Application

Suitable for any conveyor.

-  Proven Performance
-  Quality Product
-  Flexibility in Design
-  On-time Delivery

FEATURES	BENEFITS
Innovative belt support bar	<ul style="list-style-type: none"> <li>= Reduces manual handling risks</li> <li>= Elimination of mechanical aids required for roller replacements</li> </ul>
Unique ratchet mechanism	<ul style="list-style-type: none"> <li>= Reduces manual handling risks</li> <li>= Elimination of mechanical aids required for roller replacements</li> <li>= Allows rapid replacement of roller</li> </ul>
