GENERAL OVERHAULS

TS Global is a proudly Australian-owned company that specializes in producing a diverse array of premium-grade conveyor accessories and polyurethane components. We boast exceptional teams of engineers and manufacturers who possess the skills and expertise to create cutting-edge solutions for your needs.

FABRICATION AND WELDING SERVICES

Our fabrication and welding services include (but are not limited to):

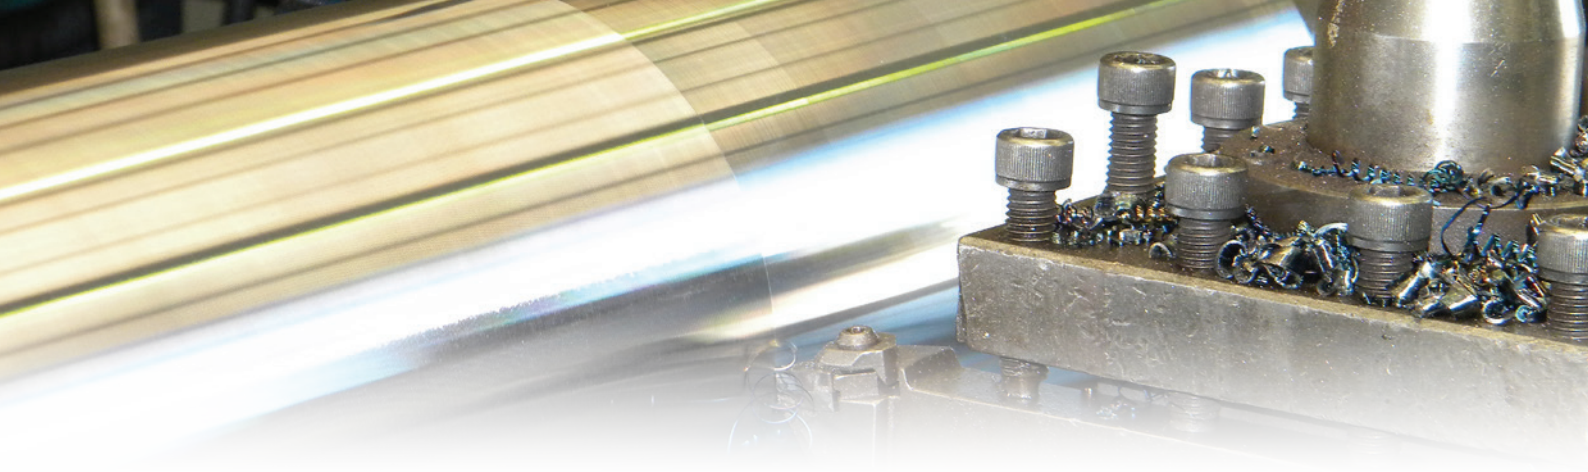

- Conveyor Pulleys
- Reclaim Feeder Breaker
- Transfer Chutes
- Belt Winders
- Skirt Boxes
- Belt Lifters & Stands

MECHANICAL SERVICES

Our capabilities in servicing, upgrading and overhauling mechanical products include:

- Conveyor Pulleys
- Gearboxes
- Rope Rollers
- Underground Jibs
- Drive-heads
- Conveyor Take-up Units

GENERAL MACHINING

Our highly skilled machinists possess in-depth knowledge and expertise, enabling us to handle different materials with exceptional precision and efficiency.

QUALITY ASSURANCE AND CONTROL SERVICES (QA/QC)

As part of our ISO 9001 Certification, we offer a comprehensive range of QA/QC services tailored to meet your specific needs. Everything from non-destructive testing (NDT) to factory acceptance testing (FAT) and trial assembly, we provide solutions to ensure quality and reliability.

DESIGN SERVICES

Regardless of the size, scale or application of the products you need, our in-house teams of engineers are able to design and draft all products to meet your desired specifications.
