

Belt Reeling System

PRODUCT
FACT
SHEET

MCE is proud to break with tradition by offering a unique belt reeling system that stands out in the market.

Unlike other systems, our solution is designed to receive and install the belt in the correct orientation for transport, eliminating the need for additional rotators or pivot tables.

This innovative approach significantly reduces the manual handling requirements whilst increasing efficiency and reducing the risk of belt damage.

With the “Wombelt”, you can trust that your conveyor system will be handled with the utmost care and efficiency.

Application

Suitable for a wide variety of belts.

-  Proven Performance
-  Quality Product
-  Flexibility in Design
-  On-time Delivery

FEATURES	BENEFITS
Unique Belt Reeling System	= Ensures the belt is received and installed in the correct orientation, eliminating the need for rotators.
Reduced Manual Handling Requirements	= Improves safety and efficiency by minimising physical intervention, reducing labor demands, and lowering the risk of injury.
Modular Design	= Offers a full suite of solutions, ensuring all aspects of belt installation, removal, and repair can be managed efficiently within the work area.
