

# Dual Stabilising Roller Assembly

PRODUCT  
FACT  
SHEET

The TS Global dual stabilising roller assembly kit is guaranteed to provide a flat and stable surface that optimises and maintains cleaner tip contact and performance.

This is achieved by increasing belt stability, maintaining tip-to-belt contact, adding flexibility and generally improving belt cleaning efficiency by reducing belt vibration and harmonics.

Balancing cost effectiveness with long life functionality makes this the ideal choice for your application.

## Application

All belt cleaning systems.

-  Proven Performance
-  Quality Product
-  Flexibility in Design
-  On-time Delivery
