

Retractable TUFF H Belt Cleaner

PRODUCT
FACT
SHEET

The range of TS Global belt cleaners are guaranteed to reduce carry back, safety hazards and environmental impact along the conveyor. The retractable H tungsten cleaners combine the features of our standard cleaner with the additional benefit of a retractable cartridge. The cartridge allows the cleaner to be serviced efficiently with rotatable spares which can be built prior to a shutdown. In addition, the use of the retractable cleaner minimises the hazards associated with manual handling as only the cartridge needs to be removed while the structural pole remains in position within the chute. Balancing cost effectiveness with long life functionality makes this the ideal choice for your application.

Application

Installed at the head end or discharge point of any conveyor belt.

Suitable to single or bi-directional conveyors.

Suitable for use on vulcanised conveyor belts only

 Proven Performance

 Quality Product

 Flexibility in Design

 On-time Delivery

FEATURES	BENEFITS
Retractable Cartridge	<ul style="list-style-type: none"> = Rotable cartridges can be refurbished outside of shutdowns = Minimal time required to replace rotatable cartridge during shutdown which increases output = Minimises exposure to manual handling as retractable cartridge weighs approx. only 50% of the cleaner
Removes majority of fines, approximately 80%	<ul style="list-style-type: none"> = Improves performance of secondary cleaners = Fines returned to the product flow, maximising revenue
Manufactured from high grade stainless steel	<ul style="list-style-type: none"> = Increases longevity in structural components
Choice of high grade tungsten tip thickness	<ul style="list-style-type: none"> = Increases life expectancy of tungsten tip = Minimises maintenance costs = Optimises performance
Our components are manufactured from castings with smooth rounded edges	<ul style="list-style-type: none"> = Our components are manufactured from castings with smooth rounded edges = Ensures uniformity of product = Consistent accuracy of product improves serviceability = Reduces exposure to potential hand injuries
Available with spring or air tensioning systems that self adjust	<ul style="list-style-type: none"> = Reduces maintenance costs as no manual adjustment required
Individual cleaning segments allow cleaner to conform to belt profile	<ul style="list-style-type: none"> = Optimises performance
