

TUFF U Belt Cleaner

PRODUCT
FACT
SHEET

The range of TS Global belt cleaners are guaranteed to reduce carry-back, safety hazards and environmental impact along the conveyor. While it can be used as an individual belt cleaner, best results are achieved when it is part of a complete cleaning system. Working in conjunction with a primary cleaner, the U tungsten belt cleaner removes the fine residue left behind by the primary cleaner. You can choose to install the U tungsten belt cleaner with or without water sprays – either way the results are impressive. Balancing cost effectiveness with long life functionality makes this the ideal choice for your application.

Application

Installed at the head end or discharge point of any conveyor belt.

Suitable to single directional conveyors only.

Suitable for use on vulcanised conveyor belts only.

 Proven Performance

 Quality Product

 Flexibility in Design

 On-time Delivery

FEATURES	BENEFITS
Performs final cleaning ensuring up to 98% of fines are removed	= Fines returned to the product flow, maximising revenue
Manufactured from high grade stainless steel	= Increases longevity in structural components
Designed with a curved blade	= Extremely effective on worn conveyor belts = Improves cleaner performance where sticky material is conveyed
Utilises a high grade tungsten blade	= Increases life expectancy of tungsten blade = Minimises maintenance costs = Optimises performance
Our components are interchangeable with most brands	= Cost savings achieved without the need to replace the cleaner
Our components are manufactured from castings with smooth rounded edges	= Ensures uniformity of product = Consistent accuracy of product improves serviceability = Reduces exposure to potential hand injuries
Available with spring systems that self adjust	= Reduces maintenance costs as no manual adjustment required
Single blade installed	= Reduces maintenance cost due to no alignment of tips required

**Also available in natural or fire resistant anti-static (FRAS) polyurethane blades*
